# About Me & NewImages

**All you need is love.** Love doesn't make the world go round. Love is what makes the ride worthwhile.

**Amazing photography is about relationships.... your relationship AND our relationship together.**

I believe I have the best job, as a wedding day is filled with magical interactions between a variety of people. My role is to help capture those interactions in a form that you can relive them again and again after your wedding day.

By getting to know you and developing a relationship, is how I understand what is most important to you on your wedding day, then enabling me to capture those perfect moments and memories.

Having trust with your photographer results in stunningly beautiful images that you can share to keep your memories alive forever.

**My style is timeless, relaxed, and natural.**

My character is friendly, supportive, and positive, and my images are magical and beautiful.

I have now been creating personalised Photographic art for over 10 years. I specialise in offering fantastic quality Wedding, Studio & Portrait Photography services at affordable prices, but without skimping on quality.

I have always had a passion for taking photographs & I have luckily had the ability to turn this passion & joy into my career. To take this vision & creativity to capture your memories and moments, for them to be cherished for years to come. I take pride in working directly with you to discover your ideas and then capture those magical moments for you to Keep, Share & Treasure Forever.

**So please, if you think I could be the right photographer for you and would like to talk more about how I can create beautiful images of your special day get in touch.**

## How do I book?

Simply get in touch to check availability for your date and location.

Then we will arrange a booking call to go through the finer details of your day. Such as timings, details, and information about you.

Closer to your wedding we have a recap and check if any details have changed.

The only other thing I need before the wedding day is your shot list, with names & family groups.

Then that is it! I come and capture your day and your amazing memories.

## What styles do you take?

I like to capture your days in a relaxed and simple way, I am not one for very staged and produced photos. I find more natural candid images of the day capture the details and often missed moments.

However, I will work with you to capture your memories the way you like. If you see a certain style of photograph save it and send it over, I can then make sure we're both on the same page for your day.

# FAQ

## **Can I adjust my package after booking?**

Yes, of course, some clients book their package to secure the day, and then add options such as bridal preparations or extra time at the end of the day, even adding an album or prints on.

This is not a problem. As your booking fee secures your date and I only ever shoot 1 wedding a day, so we can adjust and add on after booking if you like.

## **How long does it take to get the images back?**

I aim to get all edited images back to clients within 4 weeks, the only time that this can be affected is on the “peak” wedding months when sometimes I have been 6 weeks.
